# Features of our Soft Ice Cream Machine

## Countertop & User-friendly design with one touch function

Robust and reliable machine. Easy to use design and features allows you to operate the machine with simple one touch function.

## Short production time and Automatic refill indicator

Quick start and short production time ensures that your soft serves are ready in less than 10 minutes. Automatic sensor prompts you to refill when level is low. Continuous serving without having the need to wait for the refilled content to be ready.

## Pre-cooling system

Pre-cooling system allows you to store your content overnight at the press of a button without the need to empty and clean your machine at the end of every business day. Content remains fresh inside the machine with this awesome feature usually found in higher end models only. This premium feature is available in our entire range of soft serve machines.

## Easy to clean and maintain

Easy to use and ease of cleaning after use makes our machine a popular choice amongst those looking for a reliable and easy-to-use machine.

## Pre-set hardness level

Machine is designed for use with most type of mixture input. Manually selected hardness level allows you to choose the hardness and texture according to your preferences.

## Warranty and Support

Machine installation and workshop on use of machine is provided upon delivery to ensure proper set-up of the machine and allows our customers to learn to operate the machine and understands its features with the help of our friendly trainers.

Warranty and service support is available for one year and you can have a peace of mind knowing we are here to provide you with warranty in parts and after sales service should you ever require them. Optional extended 2 or 3 years warranty are also available.
